DETAILED ACTION

THIS OFFICE ACTION IS IN RESPONSE TO APPLICANT'S AMENDMENT FILED 11/10/2008.

Status of Claims

- Claims 8-9, 11, 39-40, 42 were canceled.
- Claims 1, 12, 14, 16-17, 30, 32, 41, 43, 45, 47-48, 61, and 63 were amended.
- Claims 1-7, 10, 12-38, 41, and 43-68 are pending.

Election/Restrictions

[1] Claims 1, 32, and 63 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 15, 17, 20, 23-31, 34, 46, 48, 51, and 54-62 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 64-68, remain withdrawn from consideration since they are directed to method claims.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claim Objections

[2] Applicant has addressed all objections to the Claims in the amendment filed 11/10/2008.

Accordingly, all objections to the disclosure have been withdrawn by the Examiner.

Response to Arguments

[3] Applicant's amendment filed 11/10/2008 regarding rejections under 35 U.S.C. 102 have been fully considered. Due to the amendment to the claims, the prior art fails to further anticipate. Accordingly, the Examiner has withdrawn all previous rejections over Smith.

Allowable Subject Matter

[4] Claims 1-7, 10, 12-38, 41, and 43-63 are allowed.

Reasons for Allowance

[5] The following is an examiner's statement of reasons for allowance. This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive supported in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claims, which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, with regard to independent claims 1, 32, and 63, the prior art fails to disclose of an anchor having outer threads and at least one expandable leg, said anchor being adapted to receive therein a threaded fastener such that sufficient rotation of the threaded fastener retracts said distal end towards said proximal end thereby causing said leg to displace to a laterally expanded position thereof said outer threads including a first outer thread provided on said shank between said proximal end and said leg and engaged in the wall when said leg is in said expanded position, a second outer thread provided between said leg and said distal end and a third outer thread provided around said leg, said first, second, and third outer threads having a substantially same pitch. Though Smith discloses of an anchor an expandable leg that operates as claimed, Smith discloses only of one thread portion at the proximal end of the anchor; not disclosing or teaching of three separate thread portions having a substantially same pitch. Nor does the examiner see motivation therein to alter/add threads to the anchor of Smith in view of the prior art of record. Hsu, US-2006/0067803, though

Art Unit: 3677

similar in other aspects of the claimed invention (such as multiple thread portions and expandable leg), it does not possess an applicable date.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
